|   | Περίληψη Πρόσκλησης:    | Objectives<br>Alliances for Innovation aim to strengthen Europe's innovation capacity by boosting<br>innovation through cooperation and flow of knowledge among higher education,<br>vocational education and training (both initial and continuous), and the broader<br>socio-economic environment, including research. They also aim to boost the provision of<br>new skills and address skills mismatches by designing and creating new curricula for<br>higher education (HE) and vocational education and training (VET), supporting the<br>development of a sense of initiative and entrepreneurial mind-sets in the EU.<br>These partnerships shall implement a coherent and comprehensive set of sectoral or<br>cross-sectoral activities, which should be adaptable to future knowledge developments<br>across the EU. To boost innovation, the focus will be on talent and skills development.<br>Firstly, digital competences have become increasingly important in all job profiles across<br>the entire labour market. Secondly, the transition to a circular and greener economy<br>needs to be underpinned by changes to qualifications and national education and training<br>curricula to meet emerging professional needs for green skills and sustainable<br>development. Thirdly, the twin digital and green transition requires an accelerated<br>adoption of new technologies, in particular in the highly innovative deep tech domains,<br>across all sectors of our economy and society.<br>Actions<br>This call covers the following topics:<br>ERASMUS-EDU-2025-PI-ALL-INNO-EDU-ENTERP: Alliances for Education and Enterprises;<br>ERASMUS-EDU-2025-PI-ALL-INNO-BLUEPRINT: Alliances for Sectoral Cooperation on<br>Skills (implementing the 'Blueprint') |
